

Parent Parking, Drop-Off and Pick-Up of Students

In our ongoing effort to reduce congestion and increase the safety of our students, we request your assistance with our parking, drop-off and pick-up procedures.

Check out the following pictures and a brief explanation for each below.

Thank you for your cooperation!

The speed limit in our designated school zone is 30km/hr.

The zone begins shortly after you make your way onto School Blvd from the north and continues all the way to the Blumenort Rec Centre to the south.

A “No Parking” sign has been placed just before the corner of School Blvd and Park Street. This “No Parking” area continues all the way around the corner to Parkview Bay.

As you make your way east on Park Street and then north on School Blvd, you will notice the bright yellow curbs signalling a “No Stopping” / ”No Parking Area”.

During school hours, our bright orange pilons provide our students and families a safe area to walk and make it much easier for our busses to make their turn around the tight corner.

As you head north on School Blvd, you will notice our Staff Parking Lot entrance and the sidewalk on the east side. Our students have been directed to use this sidewalk as they head to the crosswalk. We are also encouraging our families to use this east side of School Blvd for parking, drop-off or pickup.

A reminder that the new parking lot on the east side of School Blvd is for Staff Only. This area will now allow for additional visitor parking on the west side of School Blvd.

If you are looking to pickup/drop-off your little ones, we ask that you continue to use the front parking lot or the east side of School Blvd.

With all of the newly-created parking spots available, a reminder that vehicular traffic will not be allowed in our bus loop between 8am and 4pm.

Twenty parking curbs designate parent parking,
drop-off and pick-up.

The fence also includes two openings.
It is here where our students and families
will be able to cross our bus loop safely.

School crossing signs are a visual reminder for our students and families where to cross our bus loop.

In order to help with the visibility of our students,
“No Parking” signs have been attached
to the fence near our flag pole.
This also includes “No Stopping”.

Besides the previously mentioned areas for parking, there is also the west side of our school for student pick-up or drop-off. We ask that you follow the posted parking signs and note that our old parking lot behind the school is closed to all vehicular traffic. Thank you!
